2. The PSB *staff* understands that the sense of the meeting was to approve an evaluation project of the psychological effort [] however, [] Assistant Director for Evaluation and Review (PSB), informed me that it is his understanding that the evaluation will take place in Washington and will be based on material presently available here and material which can be obtained from files [] without additional surveys in the field. He stated that the possibility of sending a highly qualified non-governmental person to the field this fall was still being considered and that no definite decision had been reached.

3. As to present requirements on CIA with respect to this evaluation, [] stated that previously issued requirements, requests, and deadlines can be considered obsolete and cancelled; however, I believe that CIA should respond to paragraph 2 of the attachment; i.e., submit comments on the terms of reference as submitted by the PSB Staff.
